*JTR trip*

25X1A

MEMORANDUM FOR: [REDACTED]

1. This is to bring you up to date on significant developments.

2. We are arranging two important VIP tours of [REDACTED] for the week of 22 April. On 25 April, a visit by a high official [REDACTED] On 26 April (and maybe also 27), visit by members of Congress. These dates are awkward, but we had little choice. Imperative that you be here for these trips. I suggest you phone me when you hit the West Coast to confirm these dates.

3. Our comments on the IG's report on JOT's have been passed on up the line. The incentive language program has been approved in toto, subject to determination of the legality.

4. Our new film has received high acclaim from all who have seen it, including top brass.

25X1A

6. Top brass is concerned about the way people write cables. We are inaugurating a 3-hour program of instruction for hundreds of people.

7. Have received your dispatches slowly--only 6 or 7 to date. The separate cover identities are not getting to us very well.

8. The biggest headache I am reserving for your personal attention is the problem of relationship with MED staff, particularly as it concerns A&E and JOT. Bill and Ed are very unhappy. Shall try to have all facts. Incidentally, one of Bill's boys is the center of a fair sized flap. His own fault, not ours.

9. Except for the artists, who are still not settled down entirely, everybody is reasonably happy and productive. All hands have been highly cooperative and helpful, and all programs generally going quite well.
